TUX Acceptable Use 3

TUX Acceptable Use

Tux is a server and its services provided for the benefit of OCLUG and its members.

To protect this resource OCLUG requires that those given write access or email privileges acknowledge the following acceptable use agreement.

I, _, (printed name, email, address and phone) _

acknowledge that I have been given access or privileges on Linux-Ottawa / OCLUG resources. I agree that my usage of this resource will at all times respect other users, and will endeavour to do no harm to them, to Linux-Ottawa / OCLUG, or its resources. I recognize that OCLUG, through its Board or their agents, may revoke my privileges at any time.

Date:

Cut and paste the completed agreement in an email to ??? and digitally sign with your GPG key before sending.

Suggested implementation: A template will be prepared (OpenOffice?) that can be completed. It can either be printed, signed and scanned, or else a scanned signature embedded and a PDF prepared. The PDF's will be archived. (NashJc 20100912)
