February Meeting: Share, Share

Date: February 7, 2013 at 7 p.m.
Location: Shopify Headquarters

This will be a speical Share meeting.

This has two aspects: if you have some hardware you want to get rid of, or “share”, please bring it to the meeting. It would also be great if you announced it on the list.

If you have a special feature or software that you have been using, and would like to share with others, please come prepared to show people on your laptop. It would also be great if you announced it on the list.

It would also be great if anyone wants to speak about, or demonstrate, “What's new and cool in Linux”, as suggested by Dmitriy on the OCLUG mail list.

Some people will be interested in presenting this on the screen, others will just announce it, or ask the executive present to announce it for you.

The site is noisy, so only small groups at a table will be able to hear you, if you don't use the microphone.

Come on out and share!
