Intro to Arduino

October Meeting: Intro to Arduino

Date: October 2, 2014 at 7 p.m.

Location: [Dymon Storage Boardroom, 110 Didsbury Road](#)

Note: We currently do not have a fixed location for the monthly meetings, so this month it will be in Kanata. In November and December it will be at Dymon Storage on Carling Avenue (Carling at the Queensway)

This month we will be having an introductory talk on the arduino platform by Peter Sjöberg.

There will be a one hour pre-meeting item from 6:00 to 7:00 for people who are new to Linux, have general questions, or wish to help out with people who are just getting started.

After the main talk, there will be the opportunity for a GPG key signing. This is a standard offering, just look for Scott after the talk and we can go from there.

Intro to Arduino

Speaker: [Peter Sjöberg](#)

Peter is going to give an introduction to the platform, go over the installation of the IDE and show some of the things you can accomplish with the platform.

About the Speaker

Peter works as a senior systems administrator with Hewlett-Packard where he currently maintains and develops the automation of RedHat server builds and maintenance with the help of kickstart and custom in house programs.

Besides Computers he is also interested in small electronic projects and photography.

BoF Session

Speaker: [various](#)

We will not have a lot of room to break up, however we have the room until just before 9:00, so if anyone wants to have a discussion after the presentation, we can attempt to accommodate a couple of different topics.
