RaspberryPi/Arduino open discussion

July Meeting: RaspberryPi/Arduino open discussion

Date: July 6, 2017 at 7 p.m.
Location: Algonquin (Woodroffe) P216b

We will be in room P216b for the next few meetings

This month, we will be having an open discussion on RaspberryPi/Arduino devices.

Pre-meeting:

There will be a one hour pre-meeting item from 17:30 to 18:30 for people who are new to Linux, have general questions, or wish to help out with people who are just getting started.

After Meeting Social:

After the meeting, there will be a social event at one of the nearby pubs or restaurants. A short discussion and vote as to location will be taken then.

GPG Keysigning:

After the main talk and possibly the BoF, there will be the opportunity for a GPG key signing. This is a monthly offering, just look for Scott after the talk and we can go from there. Bring some kind of photo ID and some keyslips if you expect people to sign your key.If you need some method of creating pages of keyslips, there is an online slip generator available.

RaspberryPi/Arduino

Speaker: Scott Murphy

No formal schedule this month. We will be having an open discussion on RaspberryPi, Arduino, BeagleBone, or whatever platform you are interested in. If you have a project you would like to talk about, fell free to join the discussion. If you want to start a project and don't know where to get started, come out and ask questions, We have members with all levels of skill in small embedded systems (or full fledged mini computers).

About the Speaker

Scott has been haunting server rooms and using/administrating Unix and Unix like systems for more than 30 years now. His background includes IT infrastructure, system administration, deployments and migrations, security and management. He is currently working as a consultant for the federal government.
