Hybrid tablet Linux & Bookmaking

August Meeting: Hybrid tablet Linux & Bookmaking

Date: August 3, 2017 at 7 p.m.
Location: Algonquin (Woodroffe) P216b

We will be in room P216b this meeting

This month we will have two talks, one from Scott on getting linux up and running in a useful fashion on an inexpensive hybrid tablet and the second from John on his bookmaking project (That is publishing, not betting). There will also be a discussion regarding the OCLUG Wiki.

Pre-meeting:

There will be a one hour pre-meeting item from 17:30 to 18:30 for people who are new to Linux, have general questions, or wish to help out with people who are just getting started.

After Meeting Social:

After the meeting, there will be a social event at one of the nearby pubs or restaurants. A short discussion and vote as to location will be taken then.

GPG Keysigning:

After the main talk and possibly the BoF, there will be the opportunity for a GPG key signing. This is a monthly offering, just look for Scott after the talk and we can go from there. Bring some kind of photo ID and some keyslips if you expect people to sign your key.If you need some method of creating pages of keyslips, there is an online slip generator available.

Quick Wiki discussion

Speaker: John C. Nash

John will be giving an update regarding the OCLUG Wiki

About the Speaker

Retired Professor of Management at U of Ottawa.

- 2006 - May – Pres. of OCLUG – Now I'll have to learn more about Linux!
- 2007 - Mar – have learned a lot, including how much still to learn.

Bookmaking

Speaker: John C. Nash

John will be talking about his adventures in book production, tools, and recent successes

About the Speaker

Retired Professor of Management at U of Ottawa.

- 2006 - May – Pres. of OCLUG – Now I'll have to learn more about Linux!
- 2007 - Mar – have learned a lot, including how much still to learn.

Linux on a hybrid tablet

Speaker: Scott Murphy

Scott will be going over the joy of installing on cheap hardware. Cheap in both senses of the word.

About the Speaker

Scott has been haunting server rooms and using/administrating Unix and Unix like systems for more than 30 years now. His background includes IT infrastructure, system administration, deployments and migrations, security and management. He is currently working as a consultant for the federal government.
