2. Check the mailing list for in-person clusters being hosted by other members.

Program:

Topics

- Alternate Storage Locations
 - John had posted a query to the list and this is probably a good topic
 - How are people doing off-premise storage?
 - Does anyone trust “The Cloud”
 - What options are there?
- As I expect the previous topic to be either full of strong opinions or just ignored, I guess we can always have a second topic, to be determined.
