Regular Agenda Items

Committee Reports

New to Linux (New Users)

- approx 3 new users ** Shawn was interested in open source BIOS ** another person showed an appreciation for Gentoo
- there was a person the month before asking about printers. Maybe they are just single issue people without an interest in joining.

L3GO (Low Level Linux Group)

- 6 people attended the last meeting

OCLUG Customized Bunsen Labs Distro Project Update

- Not much progress this month
- there is now a Bunsenlans Helium version
- Will try to get Helium to work with Crunchmaster remastering. But after Sept 12.

Treasurer’s Report

Balance - $5,099.19 - no transactions July and August

Mailing List

- Little evidence that there is still an issue. No investigation done this month.

List of future topics

New business:

Hot topics to begin the meeting?

- Perhaps we should start future meetings with a “hot topic” to trigger some active participation before following an agenda… it seems that there are concerns about winning over first time attendees to become regulars?
- Where/who to generate the hot topic list? ** Mailing lists | newsletters | LinkedIn News ** Suggestions on the Sign up sheet.
- Somehow we get a topic by the end of the meeting and use it as the hot topic for the next meeting so people have time to prepare.

Example of hot topic idea: Microsoft buying Github

Adjournment:
