## **Planned Regular Meetings**

### **September**

- John is doing the presentation, but in case the presentation and subsequent discussions don't take a long enough, Scott has volunteered to have a backup talk prepared.

### **November**

- Suggested topic: Digital Elections
- Subject to be followed up at next board meeting.
- Possibly search for a subject matter expert

## **List of future topics**

## **New business:**

- Setting up the Jitsi meetings
  - Question: is there an alternative to sending out an email at the last minute with the link to the meeting?

- The method should minimize the possibility of “Zoom bombing”
- Scott is trying to set up a new method.
  - “The good news is that my “new” method will allow for me to create a new DNS name and activate it quickly. If I do my scripting correctly, I can have the server redo the names and restart the services in less than a minute. It sends immediately.”
  - Do we want to allow an uncontrolled meeting to see if we get “Zoom Bombed”
  - There is an issue with the timing of the email sent out with the password to the Jitsi session.

## Adjournment:

- Time: 20:29
- Motion: John
- Seconded: Ian
