Future Meeting Topics

Here are some possible topics for future OCLUG meetings. \

Send mail to the OCLUG mailing list to suggest other topics or people who would be willing to give a presentation.

NOTE: We have plenty of topics – we need people to present. You need not be the expert – we have had considerable success with panel discussions that allow multiple “small” contributions. Contact any board member or post here if you can assist.

Possible Topics

- RSS/ATOM feed readers/akregators
- GIT and other revision control s/w
- presentation software (Magicpoint, Negative, Openoffice/ppt)
- browser variations
- Firefox extensions
- screen casting
- The future of Linux
- gimp, script-fu
- Licensing issues
- Window managers
- How to Live With your Windows-Manager

- Linux on a Thumb Drive - how to put Linux on a USB key (J-F Messier could do it)
- travel with Linux
- ins and outs of a remix
- IDE (Integrated Development Environments)
- Programmer's editors (Emacs, VIM, others)

- How to build your own distro.
- File system comparison: ext2, 3, 4, FAT, NTFS
- Security issues of different file systems.

- Interworking Linux with other operating systems.
 - There will always be some Windows machines in the environment.
 - How to make Windows “easier” to use (eg: Cygwin)
 - How to transfer files, (scp, putty, rsync).
 - How to access Linux X windows graphical applications from Windows machines (xming).
 - How to access Windows machines from Linux (rdesktop)

Possible Beginner/New to Linux Topics

- How to use the command line; and why you want to use it.

Please update this page with new ideas, or contact someone who can.
