## CentOS Overview

Speaker: [Scott Murphy](#)

Scott will be giving a brief overview of CentOS

### About the Speaker

Scott has been haunting server rooms and using/administrating Unix and Unix like systems for more than 30 years now. His background includes IT infrastructure, system administration, deployments and migrations, security and management. He is currently working as a consultant for the federal government.

## Linux Mint

Speaker: [Kelly Kendrick](#)

Kelly will be giving a brief overview of Linux Mint

### About the Speaker

Survivor of Nortel, Altera and Workstream, Kelly has had a varied career as a systems administrator. He has recently finished a stint with Elections Canada and is looking for his next opportunity.

## Kodi and Openelec

Speaker: [John C. Nash](#)

John will be giving a brief talk on Kodi and Openelec on an ASUS EEE 900

### About the Speaker

Retired Professor of Management at U of Ottawa.

- 2006 - May - Pres. of OCLUG - Now I'll have to learn more about Linux!
- 2007 - Mar - have learned a lot, including how much still to learn.

## Ubuntu Linux

Speaker: [Ian Gorman](#)

Ian will be giving a short talk on Ubuntu

### About the Speaker

Ian has a lot of experience at applying experience outside of its original box.

He has solved problems in Economics, Math, Computer Science, logic based controllers, bicycles, and human relations, generally mixing in information from at least one other discipline or computer language to make it work, or work better. His experience with computers includes Linux, Mac, and several server OSes from IBM, Sun, and others. He has worked with drivers, parsers, API design, business rules, Java garbage collectors, and some less exotic code that just needed to work.

## Puppy Linux

Speaker: [Ian Gorman](#)

Ian will be giving a short talk on Puppy

### About the Speaker

Ian has a lot of experience at applying experience outside of its original box.

He has solved problems in Economics, Math, Computer Science, logic based controllers, bicycles, and human relations, generally mixing in information from at least one other discipline or computer language to make it work, or work better. His experience with computers includes Linux, Mac, and several server OSes from IBM, Sun, and others. He has worked with drivers, parsers, API design, business rules, Java garbage collectors, and some less exotic code that just needed to work.
