AGM, Static Sites revisited and filesystem discussion

April Meeting: AGM, Static Sites revisited and filesystem discussion

Date: April 6, 2017 at 7 p.m.
Location: Algonquin (Woodroffe) P213a

This is our AGM and election of board members. At this point, we have enough candidates for an election, however we still have to go through the announcement of the slate to the membership and accept any nominations from the floor. Further details follow.

Following the AGM, we will have a talk on Static sites from Scott and a follow-up talk on filesystem frustrations from John.

Pre-meeting:

There will be a one hour pre-meeting item from 17:30 to 18:30 for people who are new to Linux, have general questions, or wish to help out with people who are just getting started.

After Meeting Social:

After the meeting, there will be a social event at one of the nearby pubs or restaurants. A short discussion and vote as to location will be taken then.

GPG Keysigning:

After the main talk and possibly the BoF, there will be the opportunity for a GPG key signing. This is a monthly offering, just look for Scott after the talk and we can go from there. Bring some kind of photo ID and some keyslips if you expect people to sign your key.If you need some method of creating pages of keyslips, there is an online slip generator available.

2017 AGM

Speaker: Scott Murphy

This is our AGM and election of board members.

We will have our election of officers at the meeting. As of this point, we have the following people on the slate:

- Bruce Davis
- Ian Gorman
- Kelly Kendrick
- Scott Murphy
- John Nash

Based on the current rules regarding the board, four is the minimum, six is the maximum. We prefer to have more than the minimum in case of circumstances requiring an existing member to step down.

In addition, according to the bylaws of the non-profit corporation, we require at least 20 people to be present, either in person or via proxy. We will have a sign-up sheet for the election and will require all present to sign in order to prove the election was held in compliance with the bylaws.

Proxies can be registered by sending an email to the board email address (board dash members at oclug.on.ca) prior to 17:00 on Wednesday, April 6th so that we have a record prior to the election.

The format will be:

- Short announcement from the President
- Short financial update from the Treasurer
- Board elections if necessary

About the Speaker

Scott has been haunting server rooms and using/administrating Unix and Unix like systems for more than

30 years now. His background includes IT infrastructure, system administration, deployments and migrations, security and management. He is currently working as a consultant for the federal government.

Static Site Generation (revisited)

Speaker: Scott Murphy

This is a revised and expanded talk based on the talk given about 2 years ago. It seems that static sites are the new hotness and all that was old is new again.

About the Speaker

Scott has been haunting server rooms and using/administrating Unix and Unix like systems for more than 30 years now. His background includes IT infrastructure, system administration, deployments and migrations, security and management. He is currently working as a consultant for the federal government.

File Systems

Speaker: John C. Nash

John will be discussing his experiences with file system formats and his decision as to what he has settled on for his multi-platform backups at home and the reson he went with his final choice.

About the Speaker

Retired Professor of Management at U of Ottawa.

- 2006 - May – Pres. of OCLUG – Now I'll have to learn more about Linux!
- 2007 - Mar – have learned a lot, including how much still to learn.
