Creating an Oracle RAC Cluster in VirtualBox

November Meeting: Creating an Oracle RAC Cluster in VirtualBox

Date: November 1, 2012 at 7 p.m.
Location: Shopify Headquarters

Creating an Oracle Database Cluster in VirtualBox

Speaker: Guy Quesnel

Note: The description has been updated

Our speaker has spent many hours embroiled in the creation of an Oracle database cluster (RAC) and has succeeded in creating a flexible testing environment. He will be presenting his process for creating an Oracle Cluster in VirtualBox.

The presentation will be a mix of live demos and slides and is expected to run for about an hour.

A brief outline for the presentation:

- Overview of the virtual environment
- Network settings
- Oracle software installation (mix of live demos)
    - Cluster software
    - Database software
    - Resulting services
- Interactions between sandboxes (live demos)
- Questions
