How to set access control for Dokuwiki 3

How to set access control for Dokuwiki

- You must be logged in as an admin(istrator)
- Select the top page of the set of pages for which you want to control access
- In turn select the different groups and set and SAVE their privileges.

Typical example:

- group USER will have edit access (note that Delete > Upload > Create > Edit where > means “has more privileges”)
- group ALL will have read access

On the OCLUG wiki, the group BOARD has Delete access to board materials. ADMIN members have all privileges.
