Technical Projects and Notes

* Assorted notes

* OCLUG live distro

- [Planning outline for OCLUG live USB distro](#)
- [Investigation of EFI boot \(S Murphy\) 2017](#)
- [Attempts to configure graphical interface \(J Nash\) 2017](#)
- [New tries to prepare custom iso - March 2019](#)

* viewing Comment information in a JPG file browser

- This investigation was prompted by a need to quickly check the captions saved in JPG files. After some exchange on the linux _at_ oclug.on.ca list, I recorded what I found, including a nice simple tool built on the **feh** package. See

[scanjpgwoes.pdf](#)

. Because the Irfanview program for Windows (32 bit particularly) is useful for both Linux and Windows, documentation of how to use it to view JPG Comments in full-screen mode is presented separately as

[viewjpgcmt.pdf](#)

* removing restrictions on pdf files

- TD seems in 2017 to have started to put restrictions on pdf statement files. It is useful to be able to delete boilerplate and add in payment records using **pdfshuffler**. Here is a recipe.
